WORK EXPERIENCE

WebDesigner | Codephony — Sep 2026 – Present

- Develop and maintain WordPress websites and build pages using Elementor.
- Implement responsive layouts, landing pages, e-commerce pages, and custom HTML, CSS, and JavaScript changes.
- Support SEO implementation, website troubleshooting, maintenance, and quality assurance.
- Contribute to internal web products, automation-related tasks, and technical documentation.

WebDesigner | OmSoftSolution — Jan2025 – Aug 2026

- Designed and developed responsive WordPress websites using Elementor and Divi.
- Created and customized website layouts, WooCommerce pages, and client-requested updates.
- Implemented website speed optimization and on-page and technical SEO improvements.
- Communicated directly with clients to understand requirements and implement design updates and major website changes.
- Focused on delivering user-friendly designs aligned with client requirements.

Web Designer Intern — Sep 2023 – Dec 2023

- Assisted in designing responsive websites using HTML, CSS, JavaScript, and Bootstrap.
- Supported website updates and developed practical frontend development and client communication skills.

PROJECTS

AttendanceManagementSystem | Django,SQLite,HTML,CSS,JavaScript

Developed a web-based application for attendance tracking and record management. Implemented user authentication, punch-in/punch-out workflows, attendance tracking, and live-location functionality. Used Django ORM for database operations, implemented an admin dashboard with reports, and designed a responsive interface.
